

## SPEAKER BIOS — Long, Short, Blurb

**Long Bio (160 words)** For detailed speaker pages, marketing materials, press kits

### **Cecily Sommers**

Keynote Speaker and Business Futurist

Change is the boss, not us.

That's the starting point for business futurist Cecily Sommers, who teaches leaders to read change the way a navigator reads weather: find the patterns, follow the currents. She helps leaders become Change Literate, because those who can read change are the ones to lead it.

Since 2000, she's led major "Future of \_\_\_\_" projects for Google, Salesforce, JPMorgan Chase, Purina, and Target, and trains teams to lead like a futurist. Her 8-year engagement with Google's Executive Development team helped shape the Google School for Leaders. The secret her clients discover: anchor to what doesn't change, and you'll see where change is headed.

Named one of the World's Top 50 Female Futurists by Forbes, she's the author of *Think Like a Futurist* (named to "Top 25: What Corporate America is Reading") and a global keynote speaker known for making big ideas land simply. Her premise: the future may not be figureoutable, but it is followable.
